Overview

WorldofMoney.org was founded in 2005 and is a New York City based 501(c)(3) non-profit organization whose mission is to empower youth with a sound financial education. Nearly 4,000 youth between ages 7 – 18, and their families have received World of Money’s 40 classroom hours of immersive financial education and forums. This approach has steadily broken a generational cycle and changed the way youth and their parents understand their money. Our immersive curriculum equips children with five tenets for a financially responsible and philanthropic life: learn, earn, save, invest and donate. Our financial presenters are stellar Wall Street professionals, business and legal leaders. Via 24 coalition partners, the World of Money provides youth with our youth financial education mobile app. Launched at Google's New York City headquarters, our app is being utilized by local, regional, national and global organizations in Senegal, Ghana, South Africa and Rwanda. We are changing the world, one child at a time, and making a financially secure life for all future generations.
